- When we are attending tradeshows or calling on customers, we bring samples or small amounts of materials and offer to send information upon request.
- We avoid dated material.
- Our printed materials use soy/vegetable-based ink and post-consumer, recycled paper (minimum 30%).
- Approximately 40-60% of signage we produce is reusable or made of recycled materials.
- We regularly partner with local contractors, we manage and use local labor to minimize transportation.
- We use biodegradable shipping and packing materials.
- Our staff is trained to properly dispose of recyclable materials and other waste.
- Approximately 60-80% of our marketing is via website or email, versus print.
- When possible, we print on both sides of paper.
- The recycled content in our paper is 20-30%.
- The paper we use is chlorine-free.
- For decor, we use local, seasonal and/or organic flowers that minimize damage to ecosystems and conserve biodiversity.
- Between 20-40% of our centerpieces and decorations can be reused (for example living plants).
- We offer/recommend giveaways made of recycled, responsibly grown natural fiber, nontoxic, biodegradable and useful, not merely promotional.
- We ensure that gift items made from endangered or threatened species are NOT allowed.
- More than 80% of our gifts we source locally.
